

DOMAIN ACQUISITION SERVICES

Taking the headache out of acquiring taken domain names

Purchasing domain names from other parties can be a complicated and time-consuming process. Brandsec provides an end-to-end solution to ensure that you have the best chance of acquiring your target domain name, at the best possible price.

THREE STEP PROCESS

Make an informed decision before you buy

We conduct a pre-engagement report to understand who you are buying from, any domain name and/or website history, a marketplace valuation and the likelihood of success.

Managed communication and negotiation

Once a budget has been set, brandsec will engage the Registrant either using our local agents or through our experienced in-house brokers. Your identity is kept anonymous throughout the process.

Managed escrow and transfer process

brandsec will secure the domain name transaction through a secure escrow service, escrow.com and will manage the payment and transfer of the domain name. We can transact in AUD, USD, GBP and more
